

How to find the AREA 27 build location (The Foundry)

Parking

After 5:00pm visitors can park at any ungated spot.

**assuming there is no Duke hosted event currently using these spots.*

The closest spots to The Foundry are parallel spots designated as '**Chemistry Parking**'.

Using Google maps for GPS, the closest point of reference for driving is the "Chemistry Parking Lot" . Unfortunately there is no street address for this location but searching through the Google maps app or maps.google.com for 'Chemistry Parking Lot' will direct you to the correct general area.

Alternatively, you can GPS **140 Science Drive, Gross Hall, Duke University, Durham, NC 27708** but please note that this will take you to the front of the building but parking is in the back off Circuit and Towerview dr.

Walking to entrance

(back of Gross Hall behind the Chemistry Parking Lot)

Estimated walk from parking to back entry of Foundry (where we build) is 5 minutes

Once parked, please use the map below for how to walk to our entrance. It is located in the *back* of Gross Hall. If you walk towards the line of trees indicated in the image below, you will see a red portable and a loading dock station. Enter through the double doors on the right hand side. And you have officially made it to The Foundry!

If you are having difficulty finding the entrance and are on our Discord chat, please message for assistance.
